BY

CECIL B. SMITH, M.A.E.,

Late Assistant Professor of Civil Engineering in McGill University,  
Member Canadian Society of Civil Engineers.

---

FIRST EDITION.

TORONTO AND MONTREAL:  
CANADIAN ENGINEER—BIGGAR, SAMUEL & Co.  
1899

2-14-06

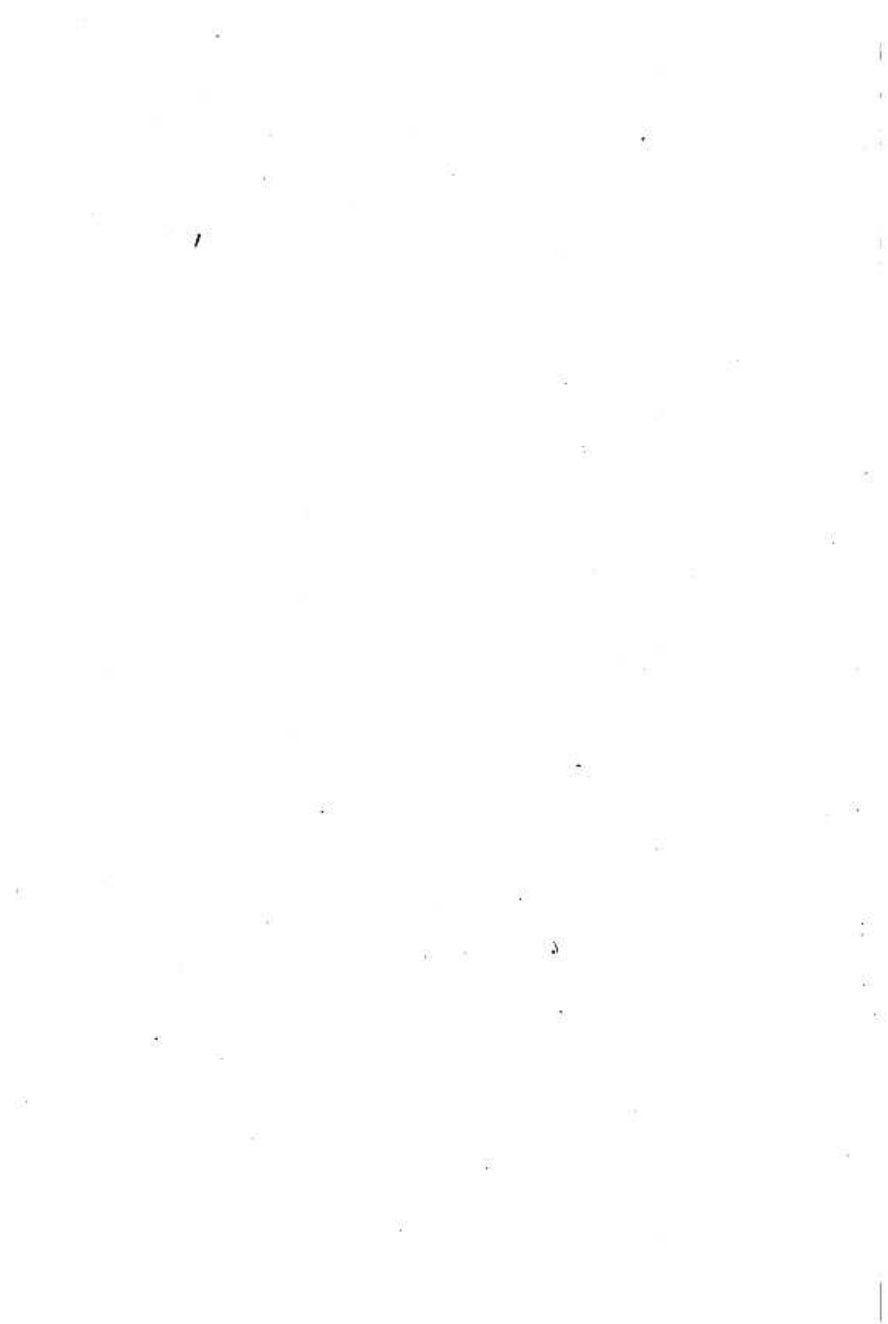

11-1-02

This Book is respectfully dedicated

to

SIR WILLIAM C. VANHORNE,

President of the Canadian Pacific Railway Company,  
who has so successfully directed its policy as to  
make it a great National and Imperial  
Highway, a blessing to the  
country, and a finan-  
cial success.

## CONTENTS.

### PART I.

#### CHAPTER I—FUNDAMENTAL CONSIDERATIONS.

Transportation in General—Progress of Railway Transportation—Distinctive features of our railways—railway projects—Essentials to success of—Bases of projects—Traffic—Growth of—Volume of—Trunk and branch lines—Receipts—Railway statistics for Canada, U.S.A. and Great Britain for 1895—Analyses of workings of Canadian systems—Tables of.

#### CHAPTER II—TRAIN RESISTANCES AND THEIR COST.

Various resistances—Level tangent—Axles—Journals—Formulæ for—Grade resistances—Curve resistances—Theory of amount of—Elevation of outer rail on curves—Cost of curve resistances—Cost of grade resistances—Net train loads—Cost of ruling gradient—Comparison of routes for operation and investment.

#### CHAPTER III—CURVES.

Vertical curves—Necessity for—Amount and where to be placed—Method of use—Circular curves—Method of placing on ground—of keeping notes—Formula for placing stakes by offsets—Transition curves—Theory of—Value of—Various kinds—Spirals—Cubic parabola—Theory of—Formulæ for placing by offset—Ditto for running in by deflection—Special problems—Reclining track.

#### CHAPTER IV—SURVEYS.

Classification—Reconnaissance—Fundamentals of—Instruments to use—Trial lines—Instruments to use—Make-up and personal qualities of members of party—Duties—Approximate estimates—Location surveys—Added duties—Topography—Bench marks—Offsets—Information to be obtained.

#### CHAPTER V—ROADBED CONSTRUCTION.

Waterways—Study for areas required—Formulæ—Plank boxes and culvert pipes—Discussion—Designs for headwall and trench—Table of cost—Open culverts—Designs for stone and timber—Discussion—Table of cost—Box culverts—Designs for stone and wood—Discussion and description of headwalls etc.—Specification for stone box culverts—Table of cost—Arch culverts—Designs for—Use of concrete—Distinctive features of designs—Timber centres—Arch sheeting—Specification for stone culvert masonry—Larger arch designs—Bridges—Abutments—Designs—Approximate quantities and diagrams of Wing—"U" "T"—Tower and combination abutments—Stone piers—Designs—Distinctive features—Specification for first class bridge masonry—Metal pier designs—Iron viaducts—General outline and layout—Formula for weight of metal—Pedestal

## CONTENTS.

masonry—Timber Trestles—Foundations—Mudsills—End bents—Designs of systems—High trestles—Bracing—Floor systems—Designs for—Elevation of floor on curves—Approximate quantity of Timber in trestles—Foundations—Designs and discussion—Land Foundations—Piles and pile-driving—Formulæ for safe loads—Foundations in water—Cofferdams—Floating and bottomless caissons—Compressed air—Cost of—Open dredging—Designs for—Laying out and measuring work—Cross-sections—Formulæ for areas and quantities—Eckel's and Prismoidal formulæ—Classification of material—Specification for excavation—Surface drainage—Catch-water, cut and slope ditching.

### CHAPTER VI—RAILWAY LAW.

General discussion of—Powers of railway committee—Privileges and powers of a railway company—Powers with limitations, and special duties of a company—With reference to survey, construction and maintenance—General duties of a railway to the country and to individuals.

## PART II.

### CHAPTER I—TRACK.

Drainage—Forms of roadbeds—Ditches—Shrinkage of banks—Uses and kinds of ballast—Surfacing—Wooden ties—Objections to use of—Qualities and kinds of—Tie preservatives—Metal ties—Varieties of—Post and Hartford metal ties—Rails—Bullhead rails—Flanged rails—Shapes of rail sections—Rail wear—Chemical composition—Physical drop tests—Rail joints—Spikes—Tie plates—Wood screws and fang bolts—Turnouts—Systems of—Frogs—Stiff and spring frogs—Switch calculations—Middle Frog calculations.

## ADDENDA.

Statistics of Canadian Railways, 1897.

Diagrams of approximate quantities in various classes of structures.

## LIST OF PLATES, DIAGRAMS, ETC.

		PAGE
Fig.	1 Diagram Illustrating Grade Resistance.....	28
"	2 " " Use of Velocity Head.....	31
Figs.	3-7 Diagrams Illustrating Curve Resistances, etc.....	34
"	8-12 " " Use and Calculations of Vertical Curves.....	45
"	13 Diagram for Staking Circular Curves by Offsets.....	45
"	14-18 Diagrams for Transition Curves.....	54
"	19 " " Carrying Straight Lines Past Obstacles.....	73
Plate	I Plank Boxes, Pipe Headwalls and Trenches.....	79
"	II Timber and Stone Open Culverts.....	82
"	III Pile Culvert and Three Span Opening.....	85
"	IV Timber and Stone Box Culverts.....	87
"	V Stone Box Culvert.....	88
"	VI Stone and Drystone Box Culverts.....	90
"	VII Stone Arch Culverts.....	93
"	VIII Stone Arch Culvert.....	94
"	IX Stone or Brick Arches.....	96
"	X Arch Centres, Headwalls, Sheeting.....	97
"	XI Wing Abutments.....	99
"	XII "T" Abutment.....	101
"	XIII "U" Abutment and Abutment Types.....	106
"	Diagram for Approximate Quantities of Bridge Abutments.....	109
"	XIV Masonry—Bridge Piers.....	112
"	XV Metal and Metal and Concrete Bridge Piers.....	116
"	XVI Iron and Timber Trestles—Trestle Foundations.....	119
"	XVII Timber Trestle Framing, Latticework Guard.....	122
"	XXVIII Timber Trestle Floors.....	126
"	Illustration of Concrete and Pile Foundation.....	130
"	XIX Sections of Cofferdams.....	134
"	XX Pneumatic Caissons, Open Dredging.....	139
"	XXI Diagrams for Earthwork Staking and Quantities.....	142
"	XXII Sections of Road-beds, Ballasting etc.....	165
"	XXIII Rail Sections.....	169
"	XXIV Rail Sections.....	173
"	XXV Steel Ties, Rail Fastenings, Wheel Treads etc.....	177
"	XXVI Rail Joints.....	181
"	XXVII Outlines of Turnout Systems.....	185
"	XXVIII Switches and Frogs.....	189
"	Diagram of Feet B.M. in Timber Trestles.....	192
"	" " " Open Pile Culverts.....	193
"	" " " " Beam Culverts.....	194
"	" of Cubic Yds. in Open Stone Culverts.....	195
"	" " " " Stone Box Culverts.....	196
"	" of feet, B.M. in Timber Box Culverts.....	197
