NATIONAL HEART AND LUNG INSTITUTE

March 10, 1975

The President The White House Washington, D.C.

Dear Mr. President:

I am pleased to submit to you for transmittal to the Congress the Second Annual Report on the National Heart, Blood Vessel, Lung, and Blood Program. This report has been prepared in accordance with Section 413(b) of the Public Health Service Act, as amended by the National Heart, Blood Vessel, Lung, and Blood Act of 1972 (Public Law 92-423, 86 STAT 679).

As required by the Act, we have reported on progress in the Program during calendar year 1974 and presented a revised and updated five-year plan for the Program. The resource projections discussed in the Report are based on scientific and professional judgement as to the resources required to accomplish program objectives within the time frame indicated. However, it is recognized that the allocation of national resources to execute the Program must be determined in relationship to other national needs at any given time.

Respectfully,

Aunth debert o

Robert L. Ringler, Ph.D. Acting Director
