BOARD OF GEOLOGICAL SURVEY.

Governor ERNEST LISTER, *Chairman.*

Lieutenant Governor LOUIS F. HART.

State Treasurer EDWARD MEATH, *Secretary.*

President E. A. BRYAN.

HENRY LANDES, *State Geologist.*

LETTER OF TRANSMITTAL.

*Governor Ernest Lister, Chairman, and Members of the Board
of Geological Survey.*

GENTLEMEN: I have the honor to submit herewith a report entitled "The Coal Fields of Kittitas County," by E. J. Saunders, with the recommendation that it be printed as Bulletin No. 9 of the Survey reports.

Very respectfully,

HENRY LANDES,

State Geologist.

University Station, Seattle, November 23, 1914.

TABLE OF CONTENTS.

| | <i>Page</i> |
|--|-------------|
| ILLUSTRATIONS | 8 |
| INTRODUCTION | 13 |
| Location and extent of the coal fields..... | 13 |
| Previous work in this field..... | 14 |
| Method of present investigation..... | 15 |
| Acknowledgments | 15 |
| History of development..... | 17 |
| CHAPTER I. GEOGRAPHY AND GEOLOGY OF KITTITAS COUNTY FIELDS | 20 |
| Geographic position | 20 |
| Topographic relations of the various fields..... | 20 |
| Geological relations of the coal-bearing formations..... | 24 |
| General statement | 24 |
| Pre-tertiary formations | 24 |
| Tertiary system | 24 |
| Eocene series | 24 |
| Swauk formation | 24 |
| Teanaway basalt | 26 |
| Roslyn formation | 26 |
| Manastash formation | 28 |
| Miocene series | 30 |
| Taneum andesite | 30 |
| Yakima basalt | 30 |
| Ellensburg formation | 30 |
| Pliocene movements | 31 |
| Quaternary system | 33 |
| Glaciation | 33 |
| Pleistocene gravels | 33 |
| Landslide topography | 35 |
| Changes in drainage | 35 |
| CHAPTER II. GEOLOGY AND CLASSIFICATION OF COAL..... | 37 |
| History of formation | 37 |
| Conditions favorable to coal formation..... | 38 |
| Time necessary for coal formation..... | 39 |
| Occurrence of coal..... | 39 |
| Irregularities due to movements of the earth's crust..... | 40 |
| Irregularities due to erosion..... | 41 |
| Irregularities in deposition of the coal beds..... | 43 |
| Rocks accompanying coal..... | 45 |
| Classification and analyses of coals..... | 46 |

| | <i>Page</i> |
|---|-------------|
| CHAPTER III. DETAILS OF THE ROSLYN-CLEALUM FIELD..... | 51 |
| General description | 51 |
| Location and extent | 51 |
| Arrangement and thickness of the coal beds..... | 52 |
| Structure of the field | 54 |
| The Roslyn coal bed..... | 57 |
| General statement | 57 |
| Estimated future production..... | 60 |
| Folds and rolls in the Roslyn bed, by Joseph Daniels..... | 62 |
| Sections and description of coals in the Roslyn-Clealum field | 83 |
| Western end of the field..... | 83 |
| Central part of the field..... | 90 |
| Eastern end of the field..... | 97 |
| Coking properties of Roslyn-Clealum coals..... | 102 |
| The "Big Dirty" bed..... | 103 |
| Location and extent..... | 103 |
| History of development..... | 104 |
| Sections of "Big Dirty" bed..... | 104 |
| Analysis | 106 |
| Computed production | 106 |
| The "Lakedale" or "Wright" bed..... | 106 |
| General statement | 107 |
| "Wright" mine | 108 |
| "Plant" mine | 108 |
| Sections of beds at Lakedale | 109 |
| Description of coal | 109 |
| Extent | 110 |
| Bed below the "Lakedale"..... | 110 |
| Beds on the Teanaway slope..... | 110 |
| General statement | 110 |
| Sections and analyses | 111 |
| Extent and estimated production..... | 113 |
| Relation to "Lakedale" or "Wright" bed..... | 113 |
| Relation of lower beds northeast of Clealum..... | 114 |
| The Teanaway Basin | 115 |
| General description of the Roslyn formation..... | 115 |
| Coal beds in the lower part of the Roslyn formation..... | 117 |
| CHAPTER IV. DETAILS OF THE MANASTASH FIELD..... | 119 |
| General description | 119 |
| Location and extent | 119 |
| History of development..... | 119 |
| Nature of work done..... | 119 |
| Description of the Manastash formation..... | 120 |
| Structure | 120 |
| Coal in the Manastash field..... | 122 |
| General statement | 122 |
| Sections and relation of coal beds in Section 22..... | 122 |

| | |
|--|-------------|
| CHAPTER IV. DETAILS OF THE MANASTASH FIELD—Continued: | |
| Coal in the Manastash field— | <i>Page</i> |
| Sections and relation of coal beds in Section 16..... | 126 |
| General relations in other parts of the field..... | 128 |
| Area and possible production..... | 129 |
| CHAPTER V. DETAILS OF THE TANEUM FIELD..... | 130 |
| General statement | 130 |
| Lower Taneum field | 130 |
| Location and extent..... | 130 |
| History of development | 130 |
| Description of formation..... | 131 |
| Structure | 131 |
| Wilson mine | 133 |
| General description | 133 |
| Sections and analyses of coal..... | 136 |
| Relation to other beds..... | 137 |
| Extent and production..... | 138 |
| Upper Taneum field | 139 |
| South Fork or Carother's field..... | 139 |
| North Fork field..... | 143 |
| CHAPTER VI. MISCELLANEOUS SMALLER FIELDS..... | 146 |
| First Creek field | 144 |
| Williams' Creek field | 149 |
| Naneum Creek field | 151 |
| CHAPTER VII. MINING IN THE ROSLYN-CLEARUM FIELD, by Joseph Daniels | 153 |
| History | 153 |
| Structure | 158 |
| Methods of entry | 162 |
| Mine haulage and transportation..... | 164 |
| Method of working..... | 167 |
| Ventilation | 173 |
| Drainage | 176 |
| Surface plant | 176 |
| Coal preparation | 178 |
| Labor | 180 |
| Mining costs | 180 |
| Washing and coking tests..... | 183 |
| Transportation | 185 |
| Markets | 185 |
| Production | 186 |
| Economic features | 186 |
| APPENDIX A. Table of production of Kittitas County, by years from 1887 to 1913..... | 189 |
| B. Table of production of the state by counties for years 1904 to 1913..... | 190 |
| C. Analyses of Kittitas County coals..... | 192 |

ILLUSTRATIONS.

| <i>Plates.</i> | | <i>Page</i> |
|----------------|--|-------------|
| I. | Geological map of Kittitas County, showing relations of the coal fields.....In pocket | |
| II. | Mine map of Roslyn-Clealum coal field.....In pocket | |
| III. | General view of Yakima-Clealum valley from Point Clealum | 16 |
| IV. | | 21 |
| | A. Teanaway basin, showing deeply eroded valley in Roslyn standstone and Mount Stuart. | |
| | B. Teanaway basin, showing north side of Roslyn ridge and outcrop of Roslyn sandstone. | |
| V. | | 23 |
| | A. Looking south toward Point Clealum, showing river terrace on south side of Yakima valley, and igneous rock rim of valley. | |
| | B. Looking north over Roslyn sandstone hills from lower valley, showing tramway to the Summit mine. | |
| VI. | | 25 |
| | A. Upper Taneum Creek valley, showing tunnel on contact between Easton schist and the Manastash formation and tunnel at station 16, Carothers field. | |
| | B. Lower Taneum Creek valley, showing Yakima basalt ledges, and location of drill hole at base of cliff. | |
| VII. | | 27 |
| | A. Yakima lava above Swauk sandstone, on Mount Baldy at head of Naneum Creek. | |
| | B. Swauk sandstone near head of Naneum Creek. Table Mountain in the background. | |
| VIII. | | 29 |
| | A. Manastash Creek canyon, narrows below the coal fields. | |
| | B. Basalt and tuff cliffs in narrows below Manastash coal fields. | |
| IX. | | 32 |
| | A. View from head of Manastash Creek, showing old Cascade peneplain level and deep dissection by streams. | |
| | B. View down Frost Creek valley, showing deeply dissected nature of the country. | |
| X. | | 34 |
| | A. Yakima basalt at south end of Table Mountain, at head of Williams Creek. | |
| | B. West face of Table Mountain, showing typical rugged landslide topography. | |
