PREFACE

THE present sketch of Homeric Grammar is designed as a companion to Attic Grammar, and is intended for boys in the higher forms of schools (and for others in a corresponding position) who have a sound knowledge of Attic Accidence, and a fair acquaintance with Attic Syntax. In accordance with this design, in the first place, the arrangement followed is the same as that of most school Greek Grammars; and, in the second place, only what is either exclusively or characteristically Epic is given. It is hoped that the first condition will make the book convenient to use, while the second certainly has secured great saving of space. At the same time, such an arrangement entails a danger which is perhaps more imaginary than real, but which a wise teacher will guard his pupils against.
