AUTHOR'S NOTE

It is a great pleasure to have this opportunity to thank the German clinicians for their unfailing courtesy, and my attending physician, Dr. Gustav Seeligmann, for his kindness in allowing me to use the obstetrical material at the Lebanon Hospital. I desire to express my appreciation to the authorities of that institution and to its house staff and nurses for their assistance. Special thanks are due to Mr. Paul B. Hoeber, at whose request this book was written, for his help and many suggestions.

In almost every instance the author
