AUTHOR'S PREFACE

THIS little book makes no claim to an exhaustive treatment of its great subject, nor even to be an original contribution to it. It is intended as an outline or introduction for those who are beginning the study, and who have no special critical or theological knowledge. The aim throughout has been to summarise the results of modern investigation from the constructive standpoint, and to show that when criticism has had its perfect work enough remains for faith and devotion. The subject is one which raises many problems of which no final solution is possible in the present state of our knowledge. The writer would acknowledge his obligations to many modern writers on the period, to some of whom reference is made in these pages, and among them especially to his old teacher, Dr. Sanday of Oxford, to whom all students of the New Testament owe an incalculable debt.
