At a meeting held on the 28th of March last year (1883), presided over by the Marquis of Lothian, while the assemblage was representative of all interests—scientific, practical, and professional—it was resolved:—‘That it is expedient in the interests of forestry, and to promote a movement for the establishment of a National School of Forestry in Scotland, as well as with a view of furthering and stimulating a greater improvement in the scientific management of woods in Scotland and the sister countries which has manifested itself during recent years, that there should be held in Edinburgh, during 1884, and at such season of the year as may be arranged, an International Exhibition of forest products and other objects of interest connected with forestry.’

In an *Addendum* to Reports made to the Executive Committee by the Jurors selected to award premiums on Forestal Literature, it is stated:

‘The following works are exhibited by Dr J. C. Brown:—

Introduction to the Study of Modern Forest Economy.

The Forests of England; and the Management of them in Bygone Times.

Forestry of Norway.

Finland: its Forests and Forest Management.

Forest Lands and Forestry of Northern Russia.

*French Forest Ordinance of 1669; with Historical Sketch of
Previous Treatment of Forests in France.*

Pine Plantations on Sand Wastes in France.

*Reboisement in France; or, Records of the Replanting of the Alps,
the Cevennes, and the Pyrenees, with Trees, Herbage, and
Bush, with a view to arresting and Preventing the destruc-
tive consequences of torrents.*

*Hydrology of South Africa; or, Details of the Former Hydro-
graphic Condition of Cape of Good Hope, and of Causes
of its Present Aridity, with Suggestions of Appropriate
Remedies for this Aridity.*

*Water Supply of South Africa, and Facilities for the Storage
of it.*

*Forests and Moisture; or, Effects of Forests on Humidity of
Climate.*

'The other Jurors regret that Dr Brown, whose services on this Jury have been invaluable, is, in accordance with Rule 6 of the Regulations for the Juries, debarred from competing for award. They desire, however, to record their opinion that his numerous works are deserving of the highest commendation.

' Each of Dr Brown's works is complete in itself, though an integral part of a series of volumes in course of publication designed to familiarise students of Forestry with the applications being made of Forest Economy in different lands; and Dr Brown's personal acquaintance with the systems pursued in most countries of the Continent of Europe has been of special service to the Jury of this class.'

For these works on Forestry a Silver Medal was subsequently awarded by the Executive Committee of the Exhibition.

The following volume is designed, along with others, to supply to British students of Forestry some of the advantages to be obtained from foreign travel.

It is on principle that the form of compilation has been adopted.

JOHN C. BROWN.
