PREFATORY NOTE

HAVING volunteered for the Army on the raising of the military age-limit, I have been unable to give any attention to the final stages of the production of this book. That it appears now at all is entirely due to the devoted attention which my wife has given to the reading and correcting of the proofs. I could not possibly allow the work to be published without acknowledgement of the very great improvement which it owes to her. Its early stages had her encouragement and help. Without her the final stages could not now have been reached. Alike in matter and in form the debt is larger than can be indicated here. It can only be confessed.
