## Is Your Door Open

to welcome comfort and cleanliness this summer? Our gas ranges are driving old-fashioned methods of cooking with their attendant discomforts out of the houses of pretty nearly every up-to-date family in Albany and vicinity.

These ranges do the work equal to any coal range made. There is no dirt, ashes or dust connected with them. Your boiler can be connected to the gas range, giving you hot water at any time.

We have a full line of the celebrated Jewel Gas Stoves, Ranges, etc., in our show rooms, which we should be pleased to show you at any time you may care to call.
