THIS little volume is composed of a series of papers—now first collected—which have recently appeared in the “Practitioner,” a medical journal of high reputation, published in London and New York by Macmillan & Co., and edited by Francis E. Anstie, M.D., F.R.C.P. *Senior Assistant Physician to Westminster Hospital; Lecturer on Materia Medica in Westminster Hospital School; and Physician to the Belgrave Hospital for Children.* In the preparation of these papers it is proper to say that the editor acknowledges the assistance of an Editorial Staff.

With the exception of a few verbal and other alterations necessary to prepare these papers for the present form and manner of publication, they are here reprinted precisely as they appeared in the “Practitioner.”
