THE substance of this volume was published in a series of articles in the *Toronto Week* during the progress of the journey it narrates : to those articles some considerable additions have since been made ; and the complete account is now offered to the public in the hope that it may in some degree supply an existing deficiency of information about a most interesting part of the Dominion—especially the district of Kootenay, with the mining interests of British Columbia, of which no later account is extant than Mr. Sandford Fleming's "Old and New Westminster."

---

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and eighty-seven by MRS. ARTHUR SPRAGGE in the office of the Minister of Agriculture.
