PUBLISHER'S ADVERTISEMENT.

THE present History is intended for the use of Public Schools throughout the country, being a more elementary book than the larger *History of Greece* by the same author, which appropriately succeeds it in more advanced classes.

This volume will be followed by similar Histories of Rome and England.

The Table of Contents presents a full analysis of the work, and has been so arranged that the teacher can frame from it questions for the examination of his class, the answers to which will be found in the corresponding pages of the volume.

Hermes (Mercury).

Coin of Mytilene.

CONTENTS.

CHAPTER I.
