NOTICE

ONE main object of this Catalogue is to facilitate the work of the Library. Readers using the Library, by entering the *Shelf Marks* here given, along with the titles of the books they ask for, will thereby save the time required to find where each book is placed, and enable the Librarians to obtain it at once.

Some important additions, especially to the earlier pages, will be found in the Supplement.

The subject-lists do not include all the works on each : others will be found under authors' names.
