COMPRISING A SHORT PRACTICAL TREATISE IN WHICH BOILING,  
BLEACHING, LOADING, COLOURING, AND SIMILAR  
QUESTIONS ARE DISCUSSED

BY

CLAYTON BEADLE

*Lecturer on Papermaking before the  
Society of Arts, 1898, 1902 and 1906; at the Papermakers'  
Exhibition, 1897; at the Dickinson Institute, on behalf of the  
Hertford County Council, 1901, and at the Battersea Polytechnic  
Institute, 1902; awarded the John Scott Legacy Medal and Premium of the Franklin  
Institute, by the City of Philadelphia, the Gold Medal of "La Société pour  
l'encouragement de l'Industrie Nationale" of Paris, the Silver  
Medal by the Council of the Society of Arts in 1906,  
and other Medals and Awards.*

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support informed decision-making.

3. The third part of the document focuses on the role of technology in enhancing data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that data is handled in a responsible and secure manner.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of ongoing monitoring and evaluation to ensure that data management practices remain effective and aligned with the organization's goals.

## PREFACE.

---

THE author wishes to urge that the chief value of this volume is to be found in the fact that it embodies the opinions of men who are continually confronted with the problems under discussion during their everyday work, and that these men represent the paper trade in every sense of the word, as, in addition to buyers and sellers of paper, all classes are represented, from prominent mill-managers to those occupying the humble positions of "fillers in."

The work cannot for the most part lay claim to literary merit, as to edit, alter, or otherwise render into better English many of the comments herein chronicled at great labour and trouble by the "horny hand of toil," would be to rob the work of a great deal of its interest and utility, as well as possibly to misinterpret the intended meanings of many of the writers. Furthermore, the most expressive way of describing most paper-making processes is not always capable of being rendered into good English, and the majority of those who are more or less familiar with such matters would prefer to see them described in the ordinary language of the paper mill.

The author is of opinion that readers will gain as much benefit by "reading between the lines" of the various answers as by seeking for direct information. In other words, the

answers are as useful by way of "suggestion" as "instruction," and should set young papermakers thinking.

It is to be hoped that these volumes will prove of service to those who contributed in the first instance to a discussion upon these questions, as well as to those who read and study these questions for the first time.

The author wishes to record his thanks to his colleague, Dr. H. P. Stevens, for his assistance in connection with the work of editing these notes.

August, 1907.*

# CONTENTS.

	Page
GENERAL INTRODUCTION ... ..	1
CHAPTER I.	
"BRASS" AND "STEEL" BEATER BARS ... ..	7
Relative merits—Wearing qualities—Rusting—Pulp discolouration.	
CHAPTER II.	
THE SIZE AND SPEED OF BEATER ROLLS ... ..	10
Speed—Revolutions—Arrangement of bars—Diameter —Definition of terms.	
CHAPTER III.	
THE FADING OF PRUSSIAN BLUE PAPERS ... ..	16
Prussian blue—Its use in paper pulp—Liability of fading—Conditions affecting stability—Chevreul's researches.	
CHAPTER IV.	
THE EFFECT OF LOWERING THE BREAST ROLL ... ..	22
Its effect in making paper as illustrated by the hand- mould.	

CHAPTER V.		Page
THE EFFECT OF "LOADING" ON THE TRANSPARENCY OF PAPERS ... ..		24
Its effect on opacity—Transparency—Substance—Weight and other qualities.		
CHAPTER VI.		
"TERRA ALBA" AS A LOADING FOR PAPER ... ..		28
Calculations for solubility—Loss—Composition of backwater—Ash in paper.		
CHAPTER VII.		
THE USE OF ALUM IN TUB SIZING ... ..		34
Penetration of waterleaf—Temperature—Strength—Influence of alum—Addition of soap—Means of control—Methods of sizing—Viscosity of size—Methods of drying—Influence of paper and beating.		
CHAPTER VIII.		
THE INFLUENCE OF TEMPERATURE ON BLEACHING ... ..		49
Rapidly of action—Critical temperature—Influence on cellulose—Overheating—Saving of time.		
CHAPTER IX.		
THE USE OF REFINING ENGINES ... ..		56
Comparison with Hollander—Mode of action—Cases where useful.		

CHAPTER X.		Page
AGITATION AS AN AUXILIARY TO BLEACHING ... ..		62
Agitation—Increased rapidity—Influence of air and sunshine—Increase of temperature—Theory of action.		
CHAPTER XI.		
THE HEATING OF "STUFF" FOR THE PAPER MACHINE		68
Effect on fibres—Water from wire—Knotters—Sizing—Shrinkage and felting.		
CHAPTER XII.		
COMPARATIVE RESULTS OF QUADRUPLÉ AND OPEN EFFECT EVAPORATION ... ..		74
Comparative merits of systems—Yaryan—Porion—Table of costs—Causticising—Rotary furnace.		
CHAPTER XIII.		
HOW TO PREVENT ELECTRIFICATION OF PAPER ON THE MACHINE ... ..		85
Probable causes—Theories—Means of prevention—Printers' difficulties—Patents.		
CHAPTER XIV.		
TRANSPARENCY OF PAPERS ... ..		97
Reasons for—Influences—Effects of Composition—Glazing—Mineral—Beating—Modes of testing—Comparisons.
